

# Generating Hope

## 2021 Annual Hope Report

***Thank You for Watering the Seeds of Hope We Planted!***

We cultivated hope with **you** in 2021! While our medical/outreach teams prepped the soil, we planted the seeds, and **you watered** them. God then grew them within the hearts, families, and communities of our precious sisters. **Thank you** for watering our seeds of hope through your prayers, talents, time, and financial resources. Together, we reached more people and generated more revenue than any prior year!

Yearly Reach/Impact: 12,900 People

Total Partners in Hope (PIH): 45

2021 Revenue: \$193,600

Donations: \$148,300    Capacity development grants: \$20,300    COVID funds: \$25,000

2021 Investments Sent to Partners: \$160,100

Central Evangelical Medical Center (CEML, Angola): \$62,600

Huambo Fistula Prevention & Outreach Team (Angola): \$14,800

International Nepal Fellowship (Nepal): \$17,700    Wellness Clinic (DR Congo): \$40,000

Kalukembe Hospital (Angola): \$5,000

World Relief (DR Congo): \$20,000

A major goal was to reach 30,000 women, men, children, health workers and NGO representatives in our partner countries with a message of hope and health by 2025. **You helped us exceed this goal in 2021!**

**Over 30,000 People Reached in Angola, the DR Congo, and Nepal by our Medical/Outreach Teams!**

What does this mean? These individuals are now equipped to make informed maternal care choices, safely deliver babies via cesarean birth, utilize new skills to spark local growth, and/or discover their inherent value. **Thank you!**

*Generating hope, one woman at a time.*

### Generating Hope Through COVID Care

Due to our strong relationships with Imago Dei Fund and GlobalGiving, we had the honor of channeling \$25,000 in COVID relief funds to Goma, DR Congo, through our local partners: The Wellness Clinic and World Relief! **Thank you** for investing in our sisters and mission. **Your support** enabled us to establish these strategic relationships. We are hopeful for additional special funding opportunities in 2022.

### Hope Through Ground Level Prevention

In 2016, **you funded** the contextualization of a World Relief program called Families for Life, so it could be implemented in Goma, DR Congo. The program was put on hold, but launched in 2021! We are excited because the program starts in the home, the ground level, teaching husbands and fathers about their wives' and daughters' priceless value. **Thank you!**

### Radio Program Goes Live

**Thank you** for funding the new radio program out of CEML, our partner hospital in Lubango, Angola. It is much needed and highly regarded, as it is one of the few programs in the province addressing maternal health issues, including obstetric fistula. Our sisters share their stories of loss and victory as they help others gain critical knowledge and hope. **You are funding hope!**

### Thank You for Watering Our Seeds of Hope!

As we begin 2022, we are excited to watch these seeds blossom into the continuous restoration and equipping of our sisters, their families, and their communities.

**Thank you for generating hope with our sisters, our medical/outreach teams, God, and us!**
