

# Generating Hope

## 2022 Annual Hope Report

*Thank You for Investing in Today and Tomorrow!*

**You** generated abundant hope in 2022 by investing in our sisters' todays and tomorrows! **Your generous investments** of prayer, talents, time, and financial resources enabled us to fund the reach and growth of our medical/outreach teams and hope-generating programs. God enabled us to once again positively impact over 12,000 people and generate more revenue than any prior year! **Thank you!**

Yearly Reach/Impact: 12,100 People

Total Partners in Hope (PIH): 44

2022 Revenue: \$216,000

Donations: \$194,000

Capacity development grants: \$22,000

2022 Investments Sent to Partners: \$171,100

Central Evangelical Medical Center (CEML, Angola): \$60,000

Huambo Fistula Prevention & Outreach Team (Angola): \$22,600

International Nepal Fellowship (Nepal): \$18,500 Wellness Clinic (DR Congo): \$50,000

World Relief (DR Congo): \$20,000

**Because of your generosity,** more women, men, children, health workers, tribal leaders, and NGO representatives are reached with a message of hope and health in Angola, the DR Congo, and Nepal every year.

**Over 43,600 People Reached in Angola, the DR Congo, and Nepal by our Medical/Outreach Teams!**

Because of this outreach, we will see our sisters suffer from fistula less often, deliver more babies safely, spark growth in their communities, and discover and share their inherent value. **Thank you for funding hope and health!**

*Generating hope, through women's health and empowerment.*

## Generate Hope 2023! – Save the Date

Keynote Speaker: Dr. Priscila Cummings  
Appetizers, Buffet Dinner, and Cash Bar

Friday, May 5, 2023, 6:30 PM, Saugus, MA  
\$50/person

### Babies are Always Involved

Maternal Health Funds are key to our prevention work, not just for mothers, but also for babies. At the Wellness Clinic (DRC), a baby was born unresponsive. After 20 minutes of effort, the staff was able to stabilize the child. Had the mother stayed away for fear of being charged a delivery fee she could not pay, her sweet baby would have most likely died. **Thank you** for funding life!

### Men are Stepping Up

Meet Armando, our first male Fistula Ambassador in Angola! After bringing his wife to be treated for fistula, he returned home to bring another woman in the community who also suffered from fistula. We are so grateful for his loving care and modeling, as more men have now chosen to serve as Ambassadors! **Thank you** for funding positive culture change!

### Time to Travel

Every few years we visit our partner countries to meet with our sisters and learn their stories, strategize with our medical/outreach team members, participate in the hope-generating programs **you fund**, and see how **your generous investments** are being spent. Andrea, Emma, and Brooke are flying to Angola (Lubango and Huambo) this March!

### Thank You for Investing in Today and Tomorrow!

With you on our Team, we will surpass our goal to reach 75,000 women, men, children, health workers, tribal leaders, and NGO representatives - by 2025!

**Thank you for generating hope with our sisters, our medical/outreach teams, God, and us!**
