

Generating Hope

2025 Annual Hope Report

You and our Community of Hope are enabling our sisters to live with dignity, confidence, respect, and hope. **Together** with you, our sisters, our teams, and God, we reached and surpassed another **impactful milestone in 2025** (see below). **Thank you** for playing your part. We are so very grateful to enable our medical/outreach teams to spread our message of hope and health in partnership **with you**.

Yearly Reach/Impact: 19,663 People

Total Reach/Impact: 100,982 People

2025 Revenue: \$181,029

Donations: \$165,174

Capacity development grants: \$15,855

2025 Investments Sent to Partners: \$149,000

Central Evangelical Medical Center (CEML, Angola): \$25,500

International Nepal Fellowship (Nepal): \$12,500 Kalukembe Hospital (Angola): \$5,500

Wellness Clinic (DR Congo): \$44,000

World Relief (DR Congo): \$27,000

Milestone Surpassed!

100,982 People Reached in Angola, the DR Congo, and Nepal by our Medical/Outreach Teams!

Fistula awareness training in Nepal

You Enable the Expanding Reach of Our Message of Hope and Health

Hope and health fuel each person's ability to live their full life. You enabled our medical/outreach teams to reach 100,982 precious individuals these last 14 years. Many of these individuals then shared this new learning with their families and communities. Ripples of hope spreading wide. **Thank you.**

Generating hope, through women's health and empowerment.

“Is not this the kind of fasting I have chosen: to loose the chains of injustice and untie the cords of the yoke, to set the oppressed free and break every yoke?” Isaiah 58:6

Thank You for Generating Lasting Hope

What a joy to sit at Petra’s feet at Generate Hope 2025 and listen to her inspiring stories of fistula awareness, treatment, and prevention through Votoka, our partner organization she founded. Votoka means “Rise Up.” This is exactly what our sisters do after interacting with Petra and her team. They stand tall, believing in their priceless value and unique place and role in this world. **Thank you** for funding this work.

Melrose Community of Hope Members

Hope Through Our Maternal Health Funds

Jamila, age 24 (left), was pregnant with twins. Due to the rebel invasion of Goma, DR Congo, her husband could not find work. Paying for the delivery was not an option. Due to your generosity, Jamila gave birth at the Wellness Clinic in Goma, one of our DRC partner organizations. Both babies (a boy and a girl) and mom were healthy. Without the Maternal Health Fund covering expenses, Jamila and her babies may not have survived the delivery. **Thank you.**

Exciting Opportunity for You

We appreciate **all of you in our Community of Hope.** We rely on you to share our sisters with your friends and family by word of mouth, social shares, prayer requests, and events. One of our favorite ways to share our sisters is through Home Hope Events. You invite friends and family, provide snacks and beverages, and we do the rest. These precious sisters are learning to sew and crochet beautiful items we will sell at our home events. **Thank you** for hosting in 2026. See “Get Involved” on our website.

Our Angolan Sisters Sewing & Crocheting

Thank you for generating hope with our sisters, our medical/outreach teams, God, and us!

Brooke F. Sulahian, HFOS President & Co-Founder
